About  
Limerick Lane Cellars  
&  
Collins Vineyard

Located along the eastern extremity of the Russian River AVA, and close to the eastern end of the Dry Creek Valley AVA, this is an area of rolling hills with southwestern exposure. The soils are of volcanic origin, mainly a clay loam with a great deal of volcanic rock and shale. The vineyard is dry farmed (no irrigation), relying on winter and spring rains to water the vines and the vineyard is pesticide and fungicide free. The Collins Vineyard planting dates back to 1910.

...raspberry, plum &  
spice aromas

**WINEMAKER'S COMMENTS:** This classic Zinfandel exhibits a brilliant ruby color and aromas of bright plum, jam, raspberry, herbs, allspice and pepper with a hint of warm vanilla. Mouthwatering flavors of bright red raspberry, black currant, peppery spice, vanilla and jam lead to a long, zesty finish. This wine has lively acidity and balanced tannins, which shows beautifully now, and will cellar for 10-12 years.
